To No. 1:
Under its systematic review program the Office of the Secretary of Defense sent us the attached two documents with request that we recommend declassification, continued classification at present or lesser levels of classification, and/or review by other agencies. The documents are concerned with atomic energy. In view of the specialized subject we would like to coordinate our response with interested offices in the DDI. Since OSD requested our reply within 60 days, we would appreciate your response with the documents by 15 August 84. Please cite reasons for your decisions under EO 12356. Thanks for your assistance.
